The 'Thrill' of Flying

Visiting the Sunshine Coast? - Living on the Sunshine Coast?

Come and join us for a fly. (bring your aircraft) Enjoy a relaxing morning or afternoon.

Pilots, family and friends are welcome at the
Phoenix Model Aviators' Airfield.

Flying times

Because the airfield is gated, members with a key have full access at anytime.
Generally, flying is from 8:30am most Wednesday and Sunday mornings when the airfield is open.

However, if you would like to see or be part of the flying, it is advisable (to avoid disappointment) that you contact an administrator on the phone numbers shown under the page 'Contact Us'.

Facilities at our new airfield are limited, so please bring your own hat, chair and something to eat and drink.

Experience **The 'Thrill' of Flying** radio controlled model aircraft with the **Phoenix Model Aviators**, situated at **Maroochydore on the Sunshine Coast, Queensland, Australia.**

Our instructors (using a dual control radio transmitter) will assist you in operating the various functions of the aircraft to make it easier during your training. After a few lessons, you will be on the way to obtaining your '*Bronze Wings*' which will allow you to fly solo. With some additional practice, you can sit for the test to receive your '*Gold Wings*'.

You are never too young or old to learn how to fly. Give it a go. It's lots of fun!

If you love flying, come along and join us. Contact our administrators for further information and directions to the field.
